

COLONNETTE STERZO

STEERING COLUMNS

COLONNETTE STERZO STEERING COLUMNS

COBO Divisione MT già leader mondiale nella progettazione e produzione di volanti e colonnette complete per macchine agricole, movimento terra e carrelli elevatori; è lieta di presentare la propria produzione di piantoni sterzo: fissi, registrabili, telescopici, che includono alcuni brevetti frutto della continua innovazione del Nostro ufficio Ricerca e Sviluppo. Confermiamo la Nostra disponibilità a considerare le Vostre richieste di piantoni personalizzati a disegno del cliente.

COBO MT Division as worldwide leader in development and manufacturing of steering wheels, steering column kits for agricultural vehicles, earth moving machines and forklifts is glad to introduce its production range of steering columns in fixed, tiltable and telescopic version. We produce patented steering columns thanks to the support of our Research & Development Department. We confirm our complete disposal to analyse any enquiry from your side concerning tailored steering columns according to the customer specifications.

COLONNETTE STERZO STEERING COLUMNS

type **PATI**

Tipo attacco volante Steering wheel connection type	Type 1	Conicità - Cone k = 1:20
		Ø min. 23,33 +/- 0.03
	Type 4	Conicità - Cone k = 1:19,26
		Ø min. 21,55 +/- 0.03
		Dentatura - Teeth Z = 36 - 7/8"
